DANIELSON AND PUTNAM NEWS DANIELSON At St. James' church Sunday next the unveiling and dedication of the statue of Joan of Arc will take place. There will be solemn services within the church and hundreds of parishioners will participate in the ceremonies attendant upon the dedication of the statue. Joan of Arc is to be canonized at Rome this month, and the ceremonies planned for Danielson next Sunday will be of special significance. The body of Mrs. Catherine Wilson, formerly Miss Catherine Connolly, who died in Worcester, was brought to the home of Mr. and Mrs. Thomas Killian in Elmville. Mrs. Wilson was formerly a resident of that place and is well remembered here. Stanley Kamaliska, the Goodyear boy charged with the theft of \$150 from the home of Mrs. George W. Fenner, was bound over for trial at the next term of the superior court when he was presented before Judge W. Fenner Woodward in the town court here Saturday morning. The boy, who had been missing from home from Tuesday of last week until he was apprehended on Friday by Chief John MacFarland, had been sleeping out of doors, according to his own statement, and that of Stanley Lipka, who was his companion during his outing. It was not developed that Lipka had anything to do with the taking of the money. Kamaliska had qualified himself with new clothes and much other material during the time that he had money to burn. Weavers who went on strike at the plant of the River Weaving company last week have been paid off by F. E. Cunniff, head of the concern, and told that never again can they have work at the plant. Mr. Cunniff was incensed because the group of weavers who were responsible for the strike quit while he was in New York on a business trip and would not listen for a minute to his subordinates, who pleaded with them to finish out the week in order that Mr. Cunniff might be given an opportunity to confer with them over a settlement. They were obstinate and refused to work another minute. Not all of the weavers were involved in the strike. Mr. Cunniff said in an interview that he feels that he is acting not only in the interest of labor generally but also in the interest of the manufacturers and the public at large in seeking to have other weavers here looking for work. He showed no desire at all to arbitrate or discuss any demands that they might have to make, but quit without a minute's warning when there was no one here excepting the superintendent to deal with them. This particular strike has been condemned by all who know something of the circumstances, and which a small group of weavers quit and returned by means of stopping the operation of the plant. The discontented weavers have been receiving day wages. Their strike was called in order that they might be placed on a piecework basis, which basis of pay Mr. Cunniff was about ready to adopt for the plant, and which was to have been put in force in the near future, when new looms recently added to the mill were placed in operation. The majority of the employees of the plant are willing to return to work, it was said here Sunday, and the plant will resume operations has not been decided. At Goodyear this week the big force that is being assembled to build the mill is expected to hit its stride and the contract for the construction of the big plant forwarded in considerable degree. The site of the mill has been staked out and some of the buildings are under way. Many of the laborers who have arrived at Goodyear are quartered in bunk houses that have been especially erected for them on the outskirts of Goodyear village. The Ethel May Shorey company, which has been playing at the Orpheum theatre in the past few days, presented its Saturday play, the closing ones of the engagement, to capacity audiences. Miss Shorey's company is one of the most popular of those that come here. During the week there has been an awakening here to the likelihood of a shortage of foodstuffs during the coming fall and winter, because of lack of labor on the farms, and many are those who have perfected their plans for planting home gardens. An announcement is expected within a few days as to the plans of W. S. Brown for the use of the old Sprague hotel, which he recently purchased, buying back a property which he sold about a dozen years ago. A number of Danielson people were at Pomfret street Saturday to attend the auction sale of the late Mrs. J. Earl White at the beautiful Harrison estate. The sale included household goods, automobiles, harnesses, carriages and many other things that found many ready buyers, who assembled notwithstanding the severity of the storm that was raging. Contractors who may be interested have until Saturday of this week, to bid for the job of constructing the state highway between the Rhode Island line at Little Pond and the end of the state road near the route to Great Killington. No bids were received for this work when the contract was offered some weeks ago. There is a possibility, it is said, that some other arrangement for building the road may be worked out if no bids are received at the present asking. Because no funds are available, no hand has been engaged to do so. The necessary funds, the settlement here seems to be that too much money cannot be paid to those who have fought in the wars for the country's honor and safety, especially to the veterans of the G. A. R., to whom Memorial day means more than ever as their ranks thin out. Perle Burdick, Howard Soule, Eunice Pike, Ruth Franklin, Arline Babson, Harold Wild and Mary Geer will represent Putnam High school in the spelling match against a team representing Putnam High school that is to be held in the town hall on the evening of May 13. Another very rainy Saturday did not help the business of Danielson's merchants, who have had the discouraging experience, similar to other dealers throughout the eastern states, of facing a very cold and wet spring that has held up the sale of a great quantity of goods. Sixty Killington men will be selected for jury service by the jury commissioners for the year beginning on Sept. 1. The list of 120 names submitted to the commissioners was compiled by the selectmen. Miss Charlotte H. Palmer of Brooklyn presented Leo J. L'Honnem post, American Legion, with a Bible. Continued speeding of motor cars through the business section has reached such a stage as to create a demand from the public for the enforcement of the state law limiting the speed of such vehicles, in order that some serious accident may be avoided. Most musicians dispense music by the measure but the bass drummer gets rid of his by the pound. Children Cry FOR FLETCHER'S CASTORIA

PUTNAM At the annual interclass speaking contest held Friday night in the High School Auditorium representatives of the four high classes delivered standard declamations in the competition for the 'cup. An interested attendance filled the hall and seemed well pleased with the efforts of the speakers. The prizes given were a cup for the call whose representative won the rat prize and a gold medal, the second prize for a silver medal, the third prize received being a book. The winners were Miss Johnson, bear of the English department, at the Howe-Marlot school at Thompson, Mr. Warren of Killington High school, A. Chapman of Plainfield High. The judges decided on the first ballot for Miss Helen Thompson as winner of the first prize. As Miss Thompson is a junior, the diploma of 1921 wins the cup this year. Miss Clara Keller of the freshman class received the silver medal for second prize, and Stanton Bailey a senior, was given an honorable mention. Previous to the contest the Senior class held a candy sale, realizing a good sum. Mr. Snow was chairman and announcer. The program follows: Sparsicus' Address to the Gladiators, LeRoy Ames, 1922; Mark Anthony's Funeral Oration, Over Caesar's (Adapted), SShakespeare; Stanton Ballard, 1920; Wee Willy Winkle (Adapted), Kipling; Elinora Fisher, 1922; Brian Reardon, 1922; Frances Hersom, 1922; Selection, P. H. S. Orchestra; Gentlemen, the Knight, Clara Keller, 1923; The Highway, Helen Phillips, 1921; Nones Horatius (Adapted), MacAulay; George Stoddard, 1920; The Heart of Oh Hiss, Helen Thompson, 1921; Selection, J. S. Orchestra; E. H. Snow spent Saturday in Worcester; George W. Child of this city spent the week and with his aunt in Webster.

The Putnam High school spelling team for the interclass spelling contest with Killington High has been picked by a final elimination contest last Thursday evening. The contest was held in the gymnasium of the high school and Miss Janvon. The contest will be held in Danielson, probably next Friday evening, the eighteenth. All contestants are endeavoring to win back the cup which Killington won by a narrow margin last year. This week in Putnam several ball games are scheduled for the High School with fans expected to perform on Saturday. The game scheduled for last Saturday was cancelled because of rain. The 300 membership of the local lodge of Odd Fellows has been reached, several houses are waiting to receive the initiatory degree next Thursday evening. The degree team will be composed entirely of past grand, which will appear for real and recreation. Without occasional diversion we are not at our best in our serious work. The man who labors with his hands may find rest in intellectual pursuits; the brain worker in the exercise of his muscles. Rest, rest and necessarily mean illness; it ought to mean activity. When a man gets to itching for office he should get a place on the ticket and then be scratched.

NORWICH TOWN The fifty-first annual meeting of the Norwich Rural association was held on Friday evening at the home of the president, Miss Kent, who presided. Reports of the secretary and treasurer were read and accepted. W. H. Geer reported for the board walks, which were extended to Goodyear, a new road was laid and new walk put on East Town street, and enough new boardwalk made to replace those now worn out. A vote of thanks was given to A. G. Gulliver for his use of his horse and wagon in laying boards. Ossia Dodge reported for sidewalks and trees. The trees set out on the Green during the last year are doing well. Plans were made for a picnic to be given soon. Part of the dues for 1920 have been handed to the treasurer. A list of names of officers for 1920 was prepared by the nominating committee. The Water Plant, owned by Ossia Dodge, they were chosen as follows: President, Miss Katherine A. TOO WEAK TO DO ANYTHING A Serious Feminine Illness Remedied by Lydia E. Pinkham's Vegetable Compound. Casco, Wis.—'After the birth of each of my children I had displacement and was so weak I couldn't do anything. I found a book about Lydia E. Pinkham's Vegetable Compound, so I thought I would try it, and after taking it I soon felt better. That was fifteen years ago and I have been well ever since except that I had a slight attack of the trouble some time ago and took some more of your Compound and was soon all right again. I always recommend your medicine and you may publish my testimonial for the benefit of other women.' Mrs. JULES BRAD, Jr., R. 1, Box 99, Casco, Wis. Lydia E. Pinkham's Vegetable Compound holds the record of being the most successful remedy for female ills in this country. If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Miss Florence Brown, assisted by other young people of the church. ANNOUNCED FROM PULPIT THAT BE FAVORED SUNDAY BENEVOLENT WATERLOO, MASS., May 9.—(Rev. Henry B. Ogilby, rector of the Church of the Good Shepherd (Episcopal) announced from the pulpit today that he was unqualifiedly in favor of Sunday baseball of the non-commercial sort. He hoped that the town would avail itself of the executive authority to permit this amateur amusement. Mr. Ogilby, who is a Boy Scout master and an enthusiastic advocate of outdoor sports, was preaching on the necessity for systematic rest and clean recreation. He said it was far better for the boys "that they be engaged in wholesome sport than be compelled to hang about the street corners, loitering, peddling and sometimes getting into trouble through the sheer need of the boy's mind and body to be doing something."

HUMOR OF THE DAY "What we want to do," shouted the man who settles every question with ease, "is to get rid of socialism, bolshevism, anarchism, radicalism and socialism." "True," commented Farmer Cornstaple, "and while you're at it, you might as well throw in rheumatism." Washington Star. Mrs. Newbridge—When you found that you couldn't accept the invitation to our wedding, why didn't you send your regrets? Miss Royal—Oh, I thought you'd have enough of your own pretty soon, dear. —Kansas City Star. "We can't make a bluff at eating grass. Everything is covered with snow." "Let's pick a few loaves and ask the kind lady to warm 'em up for us." —Louisville Courier-Journal. "I see where a college professor advertises for a job that will pay him a living wage." "No, he says if somebody will give a chance he will forget that he studied abroad and get a string of degrees." —Birmingham Age-Herald. "Are you going to wear overalls, as an economist?" "I am; if I can get to the shop before the high cost of overalls becomes a problem." —Washington Star. Mistress—What wages do you expect? New Maid—\$30 a month and I talk as I please, \$50 a month and I tell half a size, \$100 a month and I keep my mouth shut.—Judge.

THE KALEIDOSCOPE The silk industry of China employs from 4,000,000 to 5,000,000 people. There are 260 volcanoes on the globe according to late estimates. An ostrich dissected in London had in its stomach a small prayer book. There are more than 1,200 of them in that country. American motors are popular in Siam. There are more than 1,200 of them in that country. Tokio will have fifteen-mile subway, solving the problems of its traffic in a truly modern manner. The aggregate horse power of war and mercantile turbine vessels throughout the world is now about 22,000,000. Observations made during the war indicate that the average flying time of pigeons was a mile in two minutes and forty seconds. It is estimated that 600,000 bales of long-staple cotton will be used in the manufacture of motor tires in the United States this year. Some of the tops with which the Chinese amuse themselves are as large as barrels. It takes three men to spin one, and it gives off a sound that may be heard a mile away. A thoroughbred Poland China hog, tant. A thoroughbred Poland China hog, which Williams Bros., breeders, of Illinois, Ia., bought fifteen months ago for \$25, has been sold by them to W. H. Ellsworth, of Goldfield, Ia., for \$40,000, declared to be the highest price ever paid for a hog. About 300,000 mines and their accessories were produced during the war, and of these 120,000 were laid by British forces. The maximum rate of production attempted in England was 19,000 a month, and involved the employment of some 950 firms.

Poetry THE SUBTLE MINISTRIES. The murmur of a waterfall A mile away. The rustle when a robin lights Upon a spray. The lapping of a lowland stream On dipping boughs. The sound of grazing from a herd Of gentle cows. The echo from a wooded hill Of cuckoo's call. The quiver through the meadow grass At evening fall. Too subtle are these harmonies For long gone by. Such music is not understood By any school; But when the brain is overwrought It hath a spell Beyond all human skill and power To make it well. The memory of a kindly word For long gone by. The fragrance of a fading flower Sent lovingly. The gleam of the sudden smile Or sudden tear. The warm pressure of the hand, The tone of a voice. The hush that mingles "I cannot speak. But I have heard." The note that only comes a verse From God's own words: "Such things we hardly count As ministry." The verse seeming they have shown Sent sympathy; But when the heart is overwrought, The power of such tiny things To make it well! —Francis Hayter, in Boston Transcript. A SULPHUR BUTTERFLY. Along the lane as I passed by I saw a sulphur butterfly Panning with newly powdered wing The laughing broods of the Spring From brown to green, from green to blue, Lightly the fond adventurer flew. The peasant of the Summer comes, With waving flags and joyful drums, With pomp of leaf and pride of flower, And many a green cheerful hour, Under the wide and shining arch I see the blue procession march, And on the wind of Spring is borne The perfume of a Summer morn. The Summer comes, And now the new-born butterflies Frolic in the breeze about the grass, A primrose blossom through the grass. —Richard Middleton.
